*physi*cool™

rapid recovery cooling and compression

advanced therapeutic treatment

Unique, therapeutic bandage for effective treatment of acute or existing soft tissue injuries

- Immediate **cooling and compression** to quickly reduce swelling and pain
- Long lasting effect and ability to re-charge for continued use

- Easy to apply, bandage is 100% cotton with secure fastening strap
- No need for ice or refrigeration

- Non-irritant to skin
- Re-useable
- Pleasant minty aroma

“The only serious alternative to ice when our players need to apply cold and compression post-game for sprains, strains and bruising”

Ray Spiteri, Head Trainer
Carlton Football Club, AFL
